

Industry Overview: Historical Restoration

Reduced cleaning time and labor = More profit

A Faster, More Productive Clean.

The faster and more effective you can be on the job, the more profits you'll make. Dry ice blasting allows safe, effective and fast restoration of historical items, allowing you to save time, labor, clean-up and disposal costs. Contract cleaners around the world have grown their businesses with dry ice blast cleaning by decreasing project costs and increasing efficiency. Whether you buy, lease or rent dry ice blasting equipment, join the ranks of successful contract cleaners who've learned how to make dry ice blasting their competitive advantage.

APPLICATIONS

- Lead paint abatement
- Fire, smoke, water damage
- Adhesive and tar removal
- Reversal of aging effect
- Removal of corrosive contaminants
- Mold Remediation

INDUSTRY BENEFITS

- Thorough cleaning in tight areas
- Reduced cleaning time and associated labor costs
- No secondary waste
- Reduced encapsulation needs
- Non-abrasive, won't damage substrate
- Enhanced worker safety
- Chemical-free process
- Environmentally responsible

Cold Jet vs traditional cleaning methods.

CLEANING METHOD	NO SECONDARY WASTE	NON-CONDUCTIVE	NON-TOXIC*	NON-ABRASIVE
Dry Ice Blasting	•	•	•	•
Sand Blasting		•	•*	
Soda Blasting		•	•*	
Water Blasting			•*	•
Hand Tools	•		•	
Solvents/Chemicals				•

* Upon contact, traditional blasting materials become contaminated when used to clean hazardous substances and objects. These blasting materials are then classified as toxic waste and require appropriate safe disposal.

We now offer Cold Jet dry ice blasting equipment on a rental, lease, try-before-you-buy, and rent-to-own basis throughout the continental United States. Cold Jet is the global industry leader in dry ice blasting and we are pleased to be their exclusive rental partner in the U.S. market.
